Pick-up or Delivery Terms

The client can arrange to pick up a Wheeliebox from our yard at an agreed date and time, and make arrangement for the return of the Wheeliebox.

At the same time we will show the client how everything operates.

If it is a demountable unit we will provide a video on CD showing how to demount and remount on and off the sub-frame trailer unit.

The client may also request us to deliver and setup on site at a agreed date and time, and make arrangement for the return of the Wheeliebox. We charge for this service, and the cost depends on the distance we have to travel.
